

1. People Payments is People Group’s centralised invoice collection point.
2. Contractors will continue to be employed under the most appropriate payroll model, employment contracts will be issued to the contractor and agency agreements/contracts will remain entered into as before.
3. A centralised collection point is easier for agencies as they only have to pay into one account and also improves our reconciliation and credit control functions.
4. Payments of invoices into People Payments as requested, will discharge the Agency’s liability under the invoice to any of the payroll models offered within the group.
